

UNWANTED!

Be on the lookout for the **Brown Marmorated Stink Bug**—a new invasive found in Illinois.

Look for these key features that help distinguish this stink bug from other insects.

White stripes on the antennae

Smooth Shoulder Red Eyes

Speckled body

Black and white banding

Don't be fooled by other stink bugs or look-alikes!

Western Conifer Seed Bug

Brown Stink Bug

Squash Bug

If you suspect you've seen this insect or to submit a sample, please contact the Illinois Cooperative Agricultural Pest Survey
